₱ Behind in income or ahead in expenditure by \$20k or more

Commentary

Investment income is ahead of budget because of the amount of funds invested being higher than anticipated.

Other income relates to the on charge to Trust Tairāwhiti Limited for operating costs. Administration costs include strategic initiative costs and are behind budget due to the timing of strategic initiatives.

Communication costs are behind budget as some costs relating to the website redevelopment have been capitalised.

Personnel costs are behind budget due to vacant roles and timing of recruitment Distribution costs are up due to the applications that have been made and supported by trustees. The budget was for a generic distribution pool and did not allow for larger one off distribution approvals. These also include Gabrielle relief funding for Communities.

Behind in income or ahead in expenditure by \$20k or more.

Commentary

Income is ahead of budget because of additional digital boost funding and the balance of the TEAP funding being received.

Direct costs relate to iSITE retail costs, on-behalf tickets purchases and costs associated with cruise ships. These costs are behind budget due to the timing of on-behalf and cruise ship costs.

Administration costs include strategic initiative costs and are tracking behind budget. This may remain behind budget at year end due to the response to Cycline Gabrielle.

Regional marketing, development and events relate mainly to tourism activity, and currently behind budget, this is expected to be behind at year endbecause of the impact of Gabrielle.

Personnel costs are behind budget due to vacant roles and timing of recruitment. Independent Investment Committee fees have been allowed for the full year. This will be reviewed along with the investment strategy and its expected that actual will be below budget at year end.
